The leaves weren't the only thing peaking this fall. The season is also an excellent time for a wedding! We had a record number of weddings this month in some of the most unique and stunning locations we've ever experienced.

November's weddings took us to quiet natural settings, colorful cultural celebrations, and a televised galactic-themed wedding that made this month one we won't soon forget!

Capturing a bride's distinctive look and style perfectly is one of the most rewarding aspects of our job. Your wedding holds some of the most important moments of your life. We make sure you look gorgeous for every one of them!
